Subject: Re: F.J. Doyle Salvage (Urgent)

I have shared this with DSHS and asked that they assist.

Jennifer:

I will need a DSHS Health Professional to help the Leonard ISD craft a health message associated with the PCB contamination. Especially the non-actionable PCB detections on the daycare center. Please have someone with DSHS get in touch with me to discuss and so that I can get the information to the LISD Superintendent.

The contacts with the school are:

Brad Maxwell (LISD Superintendent): maxwellb@leonardisd.net 903.587.2318

Jeff Johnson (LISD Asst. Superintendent): jjohnson@leonardisd.net 903.587.2318 ext. 404

Thanks
